KM-G230

Backlight Gaming Keyboard Mouse Combo

Genius
®
Live with Ideas

Experience the new Genius backlight gaming keyboard mouse combo, KM-G230. This powerful duo features a superior online gaming experience, with a full size keyboard and mouse that provides gamers quick key & button response and programmable mouse macros to blast the competition. The keyboard features a stunning blue backlight performance and it's switchable. Through a 1Ms full speed USB report rate, gamers can enjoy faster gaming response speed, especially on FPS games.

In addition, the KM-G230 gaming mouse is specially designed to give you an edge. With a six button design, it can be customized to conquer any gaming challenge and improve combat performance. Its sleek ambidextrous design and rubber coated grip conforms to either hand as you battle your opponents for hours on end. Up to 21 keys can be programmed for user defined macros in three different profiles. The DPI button instantly shifts multiple sensitivity levels between 500 - 2000 dpi. The mouse gives you quick access from pixel-precise targeting to lightning-fast maneuvers without pausing the action. On-board memory means that your profiles are loaded directly onto your mouse and ready to use which represents greater possibility for game victory.
